CSE514 Data Mining, Fall 2022

Your name: Byeongchan Gwak

You are \_\_\_\_\_ undergraduate: \_\_\_\_\_

graduate: \_\_\_\_\_ ✓

You are a CS major: ✓ CS minor: \_\_\_\_\_

or: \_\_\_\_\_

Q: Have you taken courses on the following (if taken at WashU, give course #):

✓ Data structures: CSE 241

Algorithms:

Statistics:

Probability:

✓ Artificial Intelligence: CSE 412A

Machine learning:

Data mining:

Matrix computation:

Q: List any programming languages you feel comfortable using:

java, c, c++, python, javascript.

Q: What do you expect to get from this course?

Learning broad concept of Data mining.

Q: Circle all of the following that applies:

☐ I will graduate by Spring 2023.

☐ I need this course for visa compliance.

☐ I need this course for my program.

☐ I need this course for full-time status.

☐ I just really like the topic and want in ☺

☐ I'm already enrolled

Before continuing, read the Washington University Student Code of Conduct, available at

<https://wustl.edu/about/compliance-policies/academic-policies/university-student-judicial-code/>

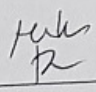

In particular, the following are the most relevant paragraphs from the Code of Conduct:

### III. Offenses

- A. The following forms of misconduct by a student or student group are subject to disciplinary action when they occur on Campus or when they occur off Campus and adversely affect the University community and/or the pursuit of its objectives. Attempts to commit acts prohibited by this Code, and agreements among two or more students to commit acts prohibited by this Code may be punished to the same extent as commission of the prohibited act itself.
1. Academic or professional misconduct, including, but not limited to, cheating, plagiarism, fabrication of data or records, impermissible collaboration on assignments, misrepresentation of student status or identity, resume or credential falsification, unauthorized use of prescription medication to enhance academic performance, unauthorized use of electronic resources, violation of test-taking conditions or rules, or otherwise violating the applicable Academic and/or Professional Integrity Policy. Knowingly making false allegations of academic misconduct against any student will itself be considered a form of academic misconduct.
  2. Interfering with the rights of other members of the University community or visitors to the University to engage in educational, recreational, residential, administrative, professional, business, and ceremonial activities, or other functions.

By signing this page, I acknowledge and pledge to follow the Washington University Student Code of Conduct. In particular, I will NOT cheat, plagiarize, or fabricate any course work of CSE514.
